

Ventilation unit "Silent" 3-fold, completely pre-wired

The new apraNET ventilation unit "Silent" offers unique modularity for all kind of application in enclosure and cabinet technology.

Premium fans guarantee high durability and reliability. The fans' covers have been integrated directly into the enclosure unit. Due to most modern plastics of classification V-0 the system meets highest requirements of fire protection.

The ventilation unit has 8 fixing points which enable mounting at all applications and positions. Power supply is effected by a plug-in contact at the rear. This plug-in contract allows for using pre-assembled cables and thermostats (see accessories) and also offers the interface to your own cable configuration.

Order no.

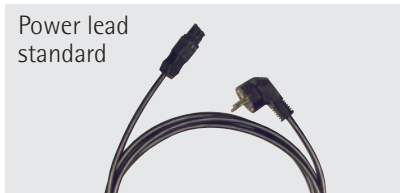

230-500-43

Technical information

Airflow	240 m ³ /h
Noise level (fan)	45,5 dB (A) /20 µPa
Size (H x W x D)	44 x 450 x 140 mm
Operating voltage/frequency	230V / 50-60 Hz
Finish	similar RAL 9005 (deep black)

Accessories: power lead for fan "Silent"

Power lead standard

Power lead with thermostat

Connecting type	Length	Power lead standard	Power lead with thermostat 0-60°C
Earthing-pin plug	3m	640-044-05	230-500-04
Rubber connector	3m	230-500-15	230-500-05
Without connecting plug	3m	230-500-16	230-500-06

Roof ventilation unit "Silent" for TiRAX cabinet system

This roof ventilation unit "Silent" distinguishes by its low noise level and large airflow.

Due to these features it may be a good alternative to a climate control unit. The low noise level of the roof ventilation unit enables it for office application.

Material: sheet steel

Surface: RAL 7035 light grey

Delivery:
roof including fan and mounting material

Technical information

Airflow (free blowing)	1545 m³/h
Noise level (fan)	40 dB (A)
Operating voltage/frequency	230V / 50-60 Hz
Power consumption	68W / 50Hz
Size hood (H x W x D)	228 x 551 x 551mm
